

Smartovate — Partnerships, Programs & Recognitions

Smartovate has been accepted into or recognized by numerous startup and technology partner programs, reflecting active ecosystem engagement:

- **Microsoft ISV Success Program** — official member, leveraging Microsoft's cloud ecosystem and resources; also received a strategic nomination within the Microsoft for Startups ecosystem, reinforcing its position as a rising innovator in intelligent workforce solutions.
- **Cloudflare for Startups** — awarded \$5,000 in Cloudflare credits, adopting Cloudflare's Zero Trust security and edge computing (Workers) tools to accelerate infrastructure for its AI-powered tools.
- **Stripe** — integrated Stripe into its technology ecosystem to enhance its platform.
- **International Artificial Intelligence Industry Alliance (AIIA)** — official member, strengthening its global AI presence.
- **SkilledSphere** — listed as one of the impactful companies shaping the GCC's digital future.
- **Black Ambition Prize** — Top 40 finalist (out of thousands of applicants) for the Black Ambition Prize founded by Pharrell Williams in 2020, competing for up to \$100K in growth funding, including a \$25K Public Voting award category.
- **IPHatch® 2025** — selected startup, working with two Nokia patents (via Piece Future) to support its innovation roadmap and global growth ambitions.
- **IPHatch® UK 2025** — Winner, an open-innovation program enabling startups to scale by integrating industrial-grade patented technologies from major corporations; supported by Piece Future, Scottish Enterprise, and City of Glasgow College.
- **Manus for Startups** — accepted into the program to help scale Subul's AI-guided task management, interactive smart tours, and real-time collaboration features.
- **Deepgram Startup Program** — accepted; integrating Deepgram's voice AI to enhance Subul's productivity and communication features, particularly for distributed sales teams (e.g., insurance agents).
- **Cartesia Startups Grant Program** — selected; integrating Cartesia's voice AI infrastructure into Smartovate's AI agents to build better learning and career tools.
- **Atlassian for Startups** — accepted; gained access to Jira and Confluence to structure internal work tracking, plus mentorship from the Atlassian startup ecosystem.
- **Cyber Horizon 2.0** — partnered as sponsor/supporter, providing opportunities and Subul access to participants and future builders.
